

Kevin M. Thomas

The Artist (Baltimore, MD)

His music rocked its way into MTV Networks' (Spike TV) reality TV series entitled, "Tripped Out" and "10 Things Every Guy Should Experience." His debut CD entitled, "Intensify", was recorded with an award-winning music production staff led by Gold and Platinum Producer David Morse (Guns and Roses, Incubus, Motley Crue). His first major gig included a performance in Downtown Disneyland and the Anaheim Hilton Pulse Room. Now just what type of musician might we be talking about? Kevin M. Thomas - and don't forget the M! He says there are a lot of Kevin Thomas' in this world and he clearly sets himself apart from the rest. As you will see, he certainly does not need an initial to do it

once you've heard his achingly emotional vocals. Kevin writes acoustic rock music with help from guitarist Josh Miller, who has only three words to say when asked about his influences -- Stevie Ray Vaughan. "What we do is certainly unique. Most of the material is quite simple yet intensely dynamic. The key is our instinctive ability to connect many genres of music, thereby shaping and molding it into something all of its own making. I believe the mixture produces an emotional, energetic, contagious, modern radio sound. Music of this nature grows inside itself, and it will grow on you with each spin," said Kevin. "Josh has brought the most incredible open-mindedness, intensity and creativity that I've never seen in another musician," said Kevin. Before he joined the project, Kevin had already generated more than 14,000 fans world-wide from his songs posted on MP3.com. He says the audience feedback is "just phenomenal" and people always react strongly to his screaming vocals. Prepare the way for their world-wide explosion to the music scene!
